CAMPFIRE

GET AWAY WITHOUT GOING AWAY

There's a reason we have favorite places.
They inspire us. Fuel creativity. Elicit our best selves.
They remind us who we are.

The workplace should be no different.

People need places that kindle authentic interactions.
That support fluent, uncomplicated collaboration.
That inspire innovation through serendipitous collision.

People need places that feel like home.

Campfire brings those favorite places to work — and
makes them work harder than ever before.

With places that transcend the ordinary and create an
oasis in the sea of sameness, Campfire proves that "getting
away" ... means staying exactly where you are.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions and results are communicated in an annual Corporate Sustainability Report.
