

teknion interpret

teknion

Interpret™ is an innovative desking system designed to work for any person, any workspace, anywhere in the world. Adaptable and scalable, Interpret allows you to make the office your own.

Based on a core frame platform and a concise set of components, Interpret can be built upon, extended or fully reconfigured in response to changing demographics, advances in technology and evolving work patterns.

Interpret also addresses the readiness of people and organizations to embrace benching by introducing new planning concepts and capabilities, while drawing from the legacy of classic systems furniture.

finish
Very White

accent color
Gala

task seating
*Contessa: Tess Mesh,
Lime Green;
Fundamentals, Verde*

lounge seating
*Collaborative Ottoman:
Cross Dye, Crimson*

Accent colors energize a space. Vivid color applied to Interpret storage, screen frames and leg structure identify and distinguish work areas and enliven the office landscape. In benching configurations, sliding translucent screens define boundaries and allow users to dial privacy up or down to facilitate group interactions or personal work.

finish
*Ebony, Flintwood,
Drift Oak*

accent color
Gris

task seating
*Sabrina: Iron Mesh;
Ample, Sunburst*

Interpret functions as a workbench for dynamic, team collaboration in environments with a mix of open and more enclosed workstyles.

finish
Very White

accent color
Platinum

task seating
Contessa: Tess Mesh,
Light Grey

The versatility of Interpret lies in its unique frame structure, which supports all essential elements above and below the surface. An accessory beam runs the length of the structure to accept screens and monitor arms. Cubbies suspend from the structure and components affix to the bench ends. Power/data is delivered via an integrated rail, a clean solution that allows for high-density technology support.

*Very White; Flintwood,
 Blonde Maple*

accent color
Aqua

task seating
*Projek: Stone Mesh;
 Full Wool, Blanc*

Interpret escapes the look of a bench. The sturdy frame creates a unique benching structure comprised of end-mounted overlay screens, up-mounted storage and extended returns that expand workspace. Casual screens define boundaries and create corridor privacy. Storage finishes can be applied in six color zones, offering the ability to create unique, custom settings.

task seating
*Sabrina: Chainlink Mesh;
Full Wool, Hot Stone*

lounge seating
*Spectrum and Keele Chair:
Full Wool, Deep Orchid*

Interpret offers a mix of materials that contribute to aesthetics, function and sustainability goals. Metal storage components have a light, clean look and accept a range of attractive finishes. Wood doors bring an upscale look to a metal cabinet case. Close attention to design detail renders simple materials beautiful.

*Collaborative Ottoman:
Full Wool, Blanc*

Interpret creates transitional configurations that combine the space-division benefits of a panel-based system with the flexibility of benching. Lightly scaled functional screens provide seated privacy. These vertical surfaces are available as a whiteboard, tackboard or accessory screen that accept an Add-On Glass Screen.

features

end-mount options

Interpret accepts multiple end-mount options to extend work areas and create accessible shared or user-specific storage nooks.

01 peninsula worksurface

Peninsula worksurfaces create a place for casual meetings at the end of an Interpret bench. They also function as surfaces for end-mounted storage cabinets.

02 wood end-mounted storage

End-mounted storage cabinets suspended below the worksurface provide shared access to materials.

03 end-mounted storage

Metal end-mounted storage cabinets accept wood, metal or clear/frost/colored glass sliding doors with handles in accent colors to elevate the clean aesthetic.

04 end-mounted storage

Wood end-mounted storage positioned above the surface can face inward for user access.

05 tackboard end-mounted storage

Wood end-mounted cabinets accept a tackboard affixed to the back for added functionality.

06 tackboard end-mounted storage

Metal end-mounted storage features an integrated tackboard or whiteboard surface at the back for enhanced functionality and personalization.

features

storage

Interpret offers varied storage options that fit different applications, including spine- and end-mounted storage and freestanding and suspended units – all available in metal and wood to ensure a balance of functional and aesthetic appeal.

Accent colors allow for a unique look tailored to the brand or other design concept. Storage units can be painted in sections, including the outer case, interior of an open case, drawer front, base and two-toned handle, offering custom finish combinations.

options

Interpret offers a variety of design elements that address specific functional requirements, as well as aesthetic preferences.

15

07 leg base

Storage base options are available to address aesthetic and functional requirements. Elevated feet enhance a light, floating presence.

laptop locker

The Laptop Locker attaches to a credenza and provides a secure place to store personal devices.

08 plinth base

The Plinth skirt base option creates a clean, to-the-floor look.

09 caster base

A caster base option provides the mobility often looked for in today's dynamic office.

10 lateral mounted storage

Lateral Mounted Storage runs perpendicular to the worksurface and provides storage, privacy and a standing-height meeting surface.

11 cubby & accessory dock

The Cubby provides compact storage for personal belongings. It is available suspended or freestanding with three base options. The Accessory Dock organizes stationery and stores and powers mobile devices.

12 height-adjustable worksurface

The Height-Adjustable Worksurface adjusts from 29 to 32 inches. Surfaces within the same frame structure may be adjusted independently.

13 sliding worksurface

Users can pull out Sliding Worksurfaces up to 5 inches for easy access to below-surface power/data.

14 curve leg

Interpret offers a Straight, Angled and Curve leg style. The Curve leg is available open and with glass or wood infill.

15 power access door

The Power Access Door may be specified in accent colors for the entire door or for trim only. Designed to retract into the worksurface, it optimizes worksurface space and provides easy user access.
