

infinito table

infinito table

Designed by Toan Nguyen, the Infinito™ table acts as a complement to the Infinito lounge collection or as a standalone occasional table. Designed with the same footprint as the Infinito lounge, the table can work in island scenarios or as a personal side table.

The Infinito table can bring life to any space through the use of materiality. The table is available in 7 different paint finishes (including 4 striking accent colors) and a variety of top surface materials. The table is also available with power to keep users connected and charged.
