HALO brings lasting beauty and innovation to your meeting spaces.

Stunning tables are encircled with the revolutionary Halo soft edge; providing patented protection for table and chair while delivering vital connectivity. Conference seating striking the table edge is defended from damage by the remarkable perimeter profile. Table surfaces are equally protected and remain pure in material and form with power and data seamlessly integrated into the Halo edge.

Modern sideboard storage and gallery seating complement Halo tables and can be configured to meet any need.

Patent US11154130B2

Three complimentary elements; storage, bench, and table, form a collection with nuance, detail and scalability

Tables

The revolutionary Halo soft edge provides patented protection for table and chair while delivering vital connectivity. Power and data are perfectly integrated into Halo's protective edge with cleanly concealed wire management pathways. Halo tables are available in a variety of base styles and a full range of beautiful finishes.

Glacier White Corian surface
encircled by a Black Halo edge
with Brushed Brass base and fully
concealed wire management pathways
60d x 120w x 29h

Etched glass surface with Black
Halo edge and Black Anodized legs
48d x 96w x 29h

Height adjustable table with Black
FENIX NTM surface, Black Halo edge
and continuous base

Storage

Modern sideboard storage complements Halo tables and seating for both formal and casual spaces. The fully configurable system provides a complete range of components that are practical, functional, and beautiful.

Seating

Beautiful bench seating seamlessly integrates with adjacent sideboard storage. Available in two seat depths, an optional back, and a range of sizes, Halo is ideal for conference room gallery seating and informal public spaces.

Halo's timeless sideboards conceal an abundance of thoughtful storage options for service and entertainment
