## CREW

With innovative design and thoughtful engineering, CREW pairs the familiar form of a classic table with the ease of flip-top mobility.

Experience an elegant mobile solution where every seat at the table affords maximum comfort. CREW's innovative mobile flip-top design places legs at the far corners of the table, ensuring unconstrained leg room for everyone, regardless of your configuration. Power and data are smartly integrated into the table edge, seamlessly and conveniently meeting your technology needs.

Patent US11122886B1

LEFT | With concealed, auto-braking casters, CREW is simple to fold, move, nest, and store.

RIGHT | CREW's patented flip-top design places legs at the far corners of the table, ensuring unconstrained leg room for everyone, regardless of your configuration.

CREW sideboards are a complete storage solution with graceful curves and a variety of base styles and finishes.

Power and data are smartly integrated into the table edge, seamlessly and conveniently meeting your technology needs.

LEFT | Meeting tables are available in a full range of materials and finishes.

RIGHT | With clean lines and beautiful integral finger pulls, sideboards are a stunning addition to any environment.

LEFT | An exceptionally elegant adjustable-height mobile lectern accommodates presenters of every stature.

RIGHT | CREW Media Tables offer beautifully designed, technology-driven table surfaces and storage elements for collaboration rooms.

CREW's thoughtful modules include refrigeration, cutlery, waste bins, glassware, and more. Mix-and-match components to create a solution perfectly-tailored to your unique meeting space.
